

FRCPN Next Steps

SENDERS NEXT STEPS OPPORTUNITIES:

Gospel Primer Cohort: The Gospel Primer provides six guided conversations around the “why” of city gospel movements that laser focuses on moving the needle of lostness in a geographic area. It challenges churches to ask the Spirit to give them a vision not just for their local church but also for their city. Four key principles are discussed and integrated more fully: Movement, Kingdom, Harvest, and Disciple. This cohort is a great place to start if you are early on in your multiplication journey but want to see more people come to faith.

“What’s Next?” Cohort: This cohort is designed for senior leaders who are committed to reaching more people through multiplication, but they aren’t exactly sure the next step they should take. Many of these leaders are open to a variety of multiplication models (planting, locations, campuses, micro, etc) but would like to explore them more in-depth as part of the discernment process for what is best for their local church. This will be a dynamic room of leaders of growing churches helping each other, with the goal of leaving this 5 month cohort with clear next steps to implement and peer support they can lean on for help in the future.

Leader Multiplication Cohort: Go on a 5-month journey (once a month) through the book “Multiplication Effect” led by a certified coach from the Multiply Group. This cohort will take a deep dive into intentional leadership development pathways within your local church that will strengthen your church by producing more and better leaders who become clear on their gifts and callings.

Reproducing Network Catalyst Training: The Reproducing Networks Catalyst (RNC) helps local churches launch a reproducing network of churches that cares for leaders and works together to multiply for greater impact. It includes coaching and training on best practices in launching a multiplying network that reaches more people. We’ll discuss leading and multiplying a network as well as the keys to fruitful collaboration. Every church will leave with an Action Learning Plan to guide you as you move into intentional implementation.

STARTERS NEXT STEPS OPPORTUNITIES:

Starters Cohort: If you are the person leading a new church plant, location, or campus on the Front Range now or sometime in the next 18 months this is for you! Senior pastors should also check this box if they have a resident, planter, or campus pastor they are preparing. This cohort will support the efforts of the Sending Church by investing in the Starter through building skills, values, and specific mindsets necessary to be fruitful on the Front Range. This supplements and does not replace what they are already receiving from the local church. A variety of mentor coaches will be involved as we meet every other month as a group and then offer personalized mentoring.

Leader Multiplication Cohort: Go on a 5-month journey through the book “Multiplication Effect” led by a certified coach from the Multiply Group. This cohort will take a deep dive into intentional leadership development pathways within your local church that will strengthen your church by producing more and better leaders who become clear on their gifts and callings.

COLLABORATION OPPORTUNITIES:

Alpha on the Front Range: Join dozens of churches as we do Alpha at the same time across the Front Range! FRCPN will work with Alpha to coordinate trainings, materials, and a website that shows every Alpha location/time. The goal is to make it plug-n-play for every church involved. Target window is March-April 2025 leading up to Easter. This keeps us laser focused on two core values of Collaboration and Lostness.

Financial Partnership with FRCPN: Join with FRCPN to become a financial partner to see the movement grow and help plant churches across the Front Range.
